

For easy and efficient
SURFACE DISINFECTION

Easydes

> Disinfectant washing is an effective means of **destroying pathogens** on frequently touched surfaces

> Easydes is suitable for a wide range of uses

THE EASYDES PRODUCT FAMILY

offers easy, fast and efficient surface hygiene

Surface hygiene is highly important in the fight to prevent various viruses and bacteria from transmitting from one person to another through surface contact. Attention should be paid to critical contact surfaces such as medical equipment, elevator buttons, chairs, cash registers, table surfaces and door handles.

Made and developed by Kiilto, a Finnish company, Easydes is an ethanol-based surface disinfectant that eliminates the need for separate cleaning and disinfection – they can both be done at the same time. Easydes effectively removes grease and visible stains, leaving a high-quality finish as well as killing pathogens. Easydes is suitable for all alcohol-resistant materials, including plastics. Not recommended for lacquered surfaces.

Use biocidal products safely. Always read the label and product information before use, and refer to the user safety data sheet.

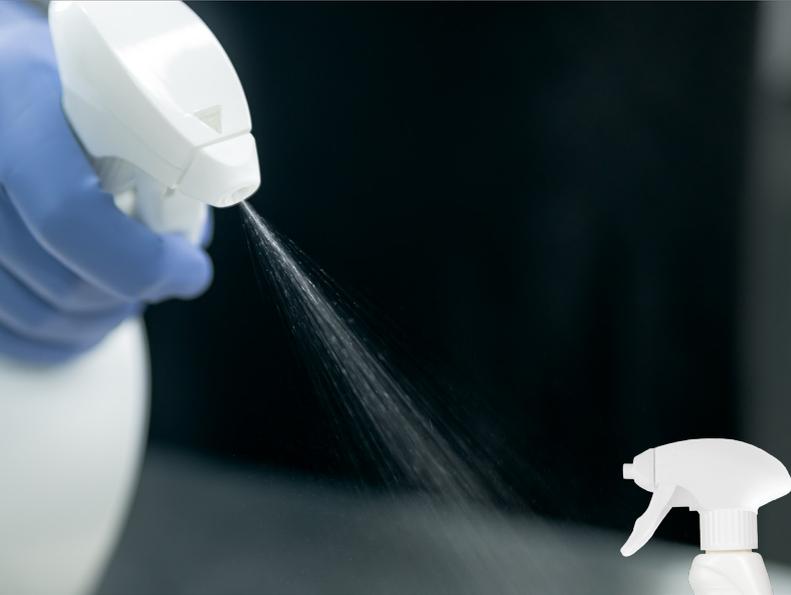

Multiple package sizes

CHOOSE ACCORDING TO THE INTENDED PURPOSE

The Easydes product family is growing, since in addition to the Easydes wipes pack of 16, a new, larger pack size of 30 wipes is being launched this autumn. The wipes in both Easydes Wipes packs are lint-free and are suitable for ensuring convenient surface hygiene on all alcohol-resistant surfaces.

The size of the single, ready-to-use wipe in the pack of 16 is 200 × 135 mm, and the wipes remain usable for one week after opening the pack. The larger wipes in the larger pack size of 30 are 285 × 200 mm in area, and are usable for three months after the pack is opened.

EASYDES FAMILY

EASYDES SPRAY

A ready-to-use, fast-acting surface disinfectant with good washing properties. For all alcohol-resistant materials: touch surfaces, devices (including phone and computer keypads and keyboards) and tools.
6 x 750 ml, product code 8183
GTIN 6417964081831

EASYDES WIPES

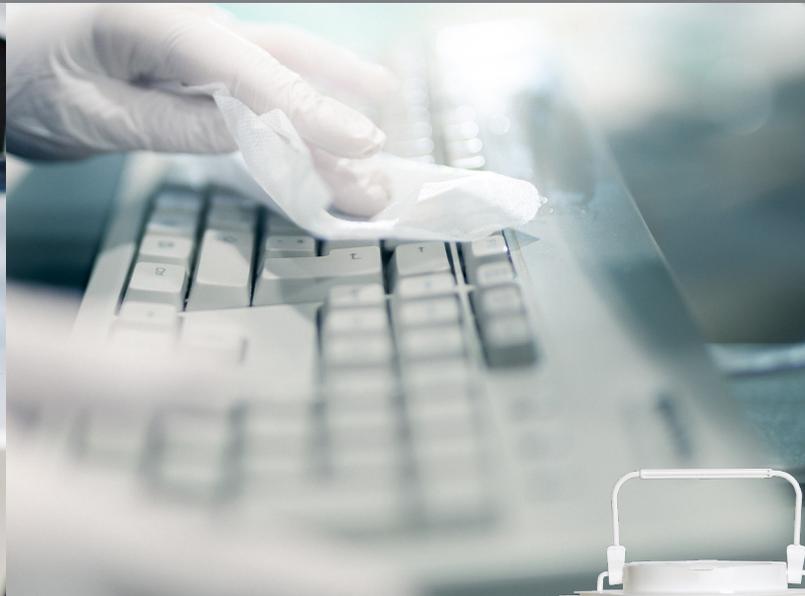

Ready-to-use and fast-acting disinfectant wipes for all alcohol-resistant surfaces that are critical for infection control. Also suitable for non-invasive medical devices.
16 x 16 pcs, product code 8285, GTIN 6417964082852
18 x 30 pcs, product code 8286, GTIN 6417964082869

EASYDES

A microbially effective, ready-to-use and fast-acting washing disinfectant for surfaces. Ideal for medical devices and equipment. Surfaces do not usually need to be prewashed or rinsed.

6 x 500 ml, product code 8081
GTIN 6417964080810
3 x 5 l, product code 8083
GTIN 6417964080834

ONE SYSTEM BASIC

A disposable disinfectant wipe pack for use in rooms where a high level of hygiene is required. Add 1.2–1.5 litres of water to the Easydes One System Basic pack for 120 ready-to-use wipes. Closing the cover tightly ensures that the wipes remain moist. The usable period for the wipes is 28 days after filling. The size of a single towel is 175 x 360 mm.

4 x 120 towels, product code 8288
GTIN 4260241964004
