Kiilto Pro Natura

CLEAN ACT FOR THE ENVIRONMENT

Kiilto Pro Natura is a high-quality product line for professionals. The serie is born from a natural cycle of raw materials without unnecessary load to the environment. Natura is a marking that indicates sustainability and that the raw-materials used are fossil-free and biodegradable. All products in the Kiilto Pro Natura -line are fragrance-free.

In the development of Natura products the whole lifecycle has been considered from raw materials to production, use, disposal and recycling. High requirements are set not only on environmental goals but also on safety and quality. Raw materials, consumption and circular economy have a big impact on the environment. With Kiilto Pro Natura we can positively effect on all of them.

GENERAL CLEANING AGENTS

KIILTO PRO FORTE

For hand-washing dishes. Contains plant-based materials. Medium-foaming, easy-rinsing. Efficiently removes greasy deposits. Free of fragrances and pigments. CLP-free. Easy on the hands. Solution pH approx. 7.

WHAT CAN WE DO FOR THE ENVIRONMENT?

When choosing a product, make sure that the raw materials and the production won't cause unnecessary load on the environment.

Always follow the dosing instructions, since correct dosing has a huge impact on the climate.

Re-use and recycle everything that is possible to put back into the circular economy cycle.

DESCALERS AND WETROOM CLEANERS

KIILTO PRO SANITOP

41128 / 1 l • 41129 / 5 l

For removal of dirt and deposits in WC facilities and wet areas. Regular use reduces deposit formation. Gel-like. No neutralisation required. Fragrance-free. Solution pH 4.

MAKING BETTER CHOICES FOR THE FUTURE

All of the Kiilto Pro Natura -products that have the limited criterias for Nordic Ecolabel set, have been granted that certificate. The Nordic Ecolabel means that the products are environmentally friendly and that their climate impact is minimal for their entire life cycle.

Most of the products also carry the Finnish Allergy, Skin and Asthma -federation certificate. The certificate states, that the product is safe to use and that it does not contain any perfumes nor other possibly irritating ingredients for sensitive persons.

KIILTO PRO SOAKING ECO

163025 / 5 l

Chlorine-free, alkaline concentrate for soaking and pre-washing of extremely dirty dishes. The improved, non-foaming formula effectively dissolves fat and starch. It is also effective on dried and burnt food residue.

KiilTO PRO

Sustainable packaging

As a pioneer in Finland, Kiilto has developed plastic bottles made of recycled plastic for professional cleaning products. Our 1 litre and 750 ml packages used in the Natura series are made of recycled plastic.

Packaging materials have a large impact on the size of a product's carbon footprint. A packaging made of recycled plastic can have up to 50% smaller carbon footprint compared to virgin packaging.

The aim is to increase the use of recycled plastics all the time. All packaging used in different package sizes in the Natura series is fully recyclable.
